

Schonbek Crystal Types

SWAROVSKI ELEMENTS

SWAROVSKI ELEMENTS is the premium brand for finest crystal elements manufactured by Swarovski. Available in a myriad of colors, effects, shapes and sizes, these elements provide a fabulous palette of inspiration for designers in the lighting industry and interior design as well as in the worlds of fashion, jewelry and accessories.

SWAROVSKI ELEMENTS have been designers' choice since 1895.

Machine-cut and polished to perfection, the logo is engraved in miniature in each crystal to prevent imitations.

SPECTRA® CRYSTAL

SPECTRA® CRYSTAL stands for machine cut Swarovski crystal with reliable Swarovski quality. SPECTRA® CRYSTAL has been a registered trademark since 1999 and offers the most important cuts in clear crystal.

Rock Crystal

No synthetic process will ever replicate the natural, prismatic beauty of rock crystal. The same cut crystal that illuminated the grand palaces of Europe centuries ago is still available to those who value lighting as an art form and a Schonbek chandelier as a piece of art.

This raw crystal is mined, not manufactured and cannot be mass-produced. Rock crystal is a natural quartz prized by collectors since ancient times. Skilled gem cutters grind, cut and polish each rock crystal by hand.

HERITAGE HANDCUT®

HERITAGE HANDCUT® crystal is cut by hand in two stages on an iron and then a sandstone wheel. Each crystal is then polished on a wood wheel with marble dust. Also available in selected Jewel Tones™ colors. The most authentic handcrafted crystal in the world.

Optic Handcut

This crystal was formerly only used in optical and scientific instrumentation, this Schonbek innovation is cut by hand and remarkably refractive. Also available in selected Jewel Tones™ colors.

Gemcut®

This machine-cut crystal is characterized by visual purity, sharp faceting and precise polishing, offering brilliant clarity at industry standards.

Vintage Crystal®

Recalling the fashions of a by-gone era, these fanciful beads, dainty droplets and antique-style faceted ovals are woven into chains creating a jewel-like brilliance. Also available in selected Jewel Tones™ colors.

Legacy Collection®

This crystal originates in the glass-making region around Venice. Modestly priced compared to cut crystal, Venetian crystal is molded and fire-polished to produce subtle luminosity.
